

Description

Creative Resins brings to you the perfect concrete floor paint. Totally UV stable and weatherproof this Polyurethane Acrylic concrete floor paint is perfect for painting onto fresh green concrete (when fully cured). The paint is formulated to absorb into the concrete, masonry and rendered surfaces providing excellent adhesion and durability. It provides a sealant that prevents dusting and repels water. It is perfect for areas where there is high footfall and can also withstand mechanical traffic such as forklift trucks etc. Perfect for use in areas such as concrete stairs, wet rooms, swimming pool areas, paths and driveways and car parking areas.

The paint is available in any colour and is fast drying. It is perfect for painting cement floors, garden paths, basement floors, masonry, brickwork, render as well as natural stone.

Recommended Substrates

Exterior and Interior Concrete, Concrete Slab, Garage and Driveway, Masonry, Brickwork. Render

Features and Benefits

Excellent Surface Adhesion | UV stable and weather resistant | Excellent scratch resistance
Excellent chemical resistance | Suitable for domestic, commercial and industrial application |
Can be formulated to any colour | Available in Matt and Gloss finish

Mixing and Application

Cleaning: Brush the surface of the substrate to remove any excess dust and debris including any old flaking paint. Make sure the surface to be painted is dry. Green concrete (freshly poured concrete) should be left to cure fully before painting. The first coat can be diluted if required using the appropriate CR thinner. Subsequent coats should be applied without diluting.

Mixing: Concrete Floor paint is cured using 25% catalyst by weight. CR UT Pigment ratio is 14/15%.

Hand Application: Using a conventional spray gun, Paint Brush or Paint Roller
