RESINS**

CONTENT

Paint machinery and equipment that has revolutionised the window, door and flat glass industries.

04

Spray Master

Automatic paint spraying machine for a variety of substrates.

12

Mixing Equipment

Full mixing set up to create Creative Resins coatings in house.

06

Picasso

Horizontal axis single gun spray machine for glass.

14

Auto Gun Wash

Automatic high pressure spray gun cleaner.

08

Auto Dispenser

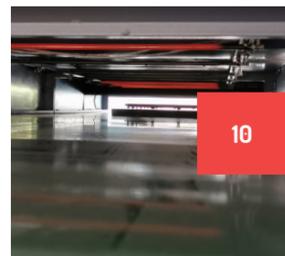

Automatic pigment dispenser for use with all our coatings.

15

Solvent Recycler

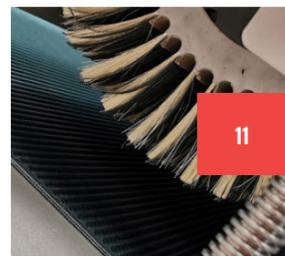

Recycle dirty Acetone and gun cleaners to reusable solvent.

10

Dry Master

Ovens in a variety of lengths for curing all types of paint.

11

Surface Master

Sanding machine to prepare the substrate for paint.

WELCOME

Creative Resins is a family run business for more than 30 years. We manufacture specialist paints and resins for Doors, Windows, Glass, Metals, Wood and Concrete as well as a comprehensive range of decorative resins including Water Clear Casting Resins and Chrome and Mirror paints. Our products are supplied to the construction industry worldwide as well as trade and general public.

We work hand in hand with Composite Door manufacturers, Window fabricators, Glass Processing companies, Metal fabricators, Garage Door manufacturers, Kitchen and Flooring companies to provide not just a comprehensive range of industrial surface coatings but also solutions for their decorative, industrial and commercial requirements including the development, manufacture and supply of specialist application systems and equipment including bespoke software programmes and an unrivalled technical support.

SPRAY MASTER

FASTEST PAINT SPRAYING MACHINE ON THE MARKET?

Capable of spraying extruded and flat profiles at high speed with constant run through. Ideal machine for spraying large quantities of doors, lengths of window profile and glass sheets. Up to six automatic spray guns controlled by photo sensors and timers. Available in 3 different working widths - 200mm, 500mm & 1000mm.

WAGNER SPRAY GUNS AND PUMP

Working with Wagner pump and airless guns to ensure quality finish and maximum product transfer efficiency. Easy and fast colour change.

EXTRACTION AND FILTERS

Multiple filtration system providing environmentally friendly spraying. Suitable for use with CR solvent and water based paints. Removable stainless steel draw for easy filter change and paint recovery.

Technical Support department can connect to the Picasso machine through the internet for software update, maintenance or troubleshooting.

Glass is detected by sensors to measure both length and width automatically. The Ultrasonic sensors are protected by anti-dust air chamber to keep them clean. Suitable for rectangles, circles and irregular shaped glass

The Picasso is our Automatic Painting System for glass. Not only is it fast, simple to use, very economical and easy to clean, but it also ensures a perfect finish. Maximize your business' profitability and production levels with probably the quickest colour change system in the glass industry.

AUTOMATIC DISPENSER

A colour pigment dispenser which automatically mixes the recipe for our Plaspaint and Glasspaints from CR exclusive 'Colour Match' software ensuring precision and repeatability every time. All machines are fully compatible with all our Surface Coatings and enable you to control colour in-house.

CREATIVE RESINS

Machinery & Equipment

AUTOMATIC ALARM TO ALERT WHEN THE INDIVIDUAL COLOURS NEED REPLENISHING. BUILT WITH 24 CANISTERS TO HOLD COMPLETE COLOUR PIGMENT RANGE.

Easy access to canisters for refill of pigments. Suitable for CR water based and solvent based systems.

System uses Creative Resins Colour Match software with over 15,000 colours. Connect our spectrometer to scan a sample and dispense the closest matching colour from the extensive colour library.

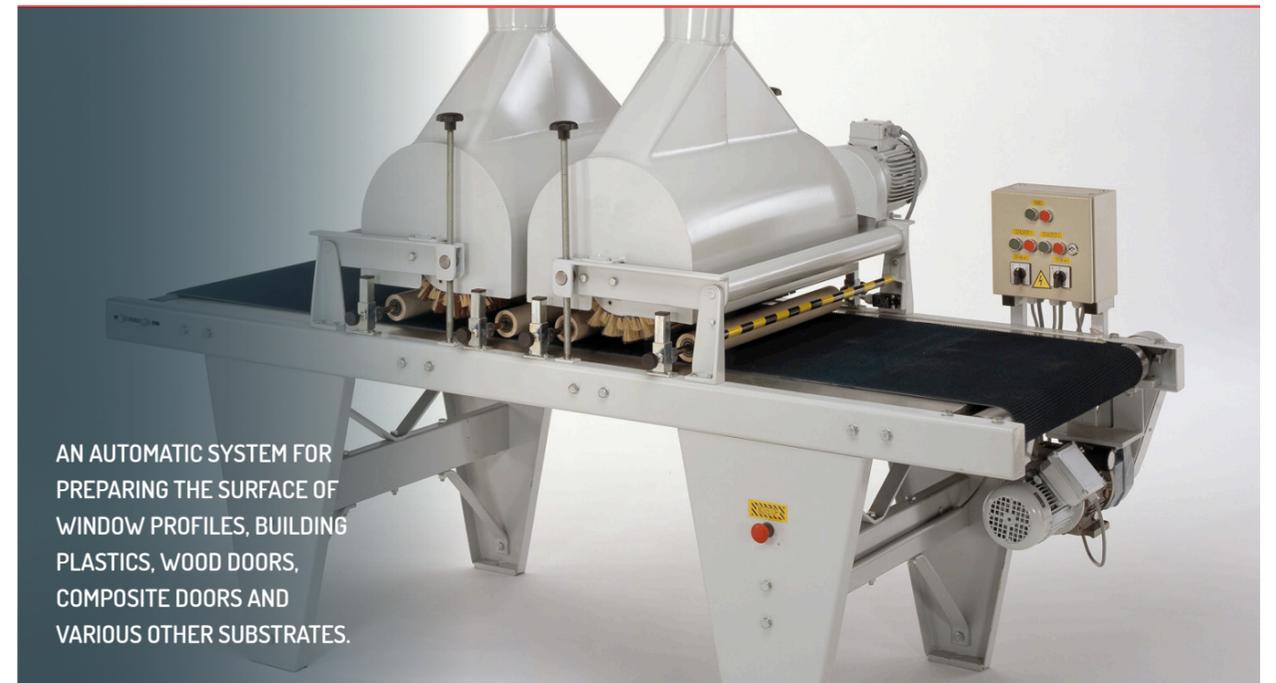

DRY MASTER

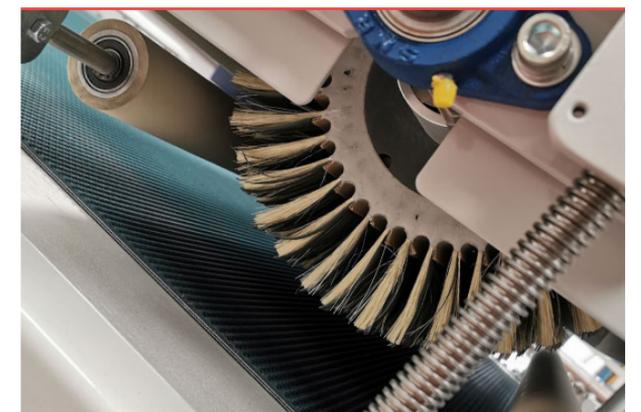

An automated drying tunnel system for enhanced curing of painted and lacquered surfaces, specially designed for curing painted lengths of PVCu profile and composite doors as well as various other substrates. Available in 3m, 6m or 12m length.

SURFACE MASTER

PREPARE SUBSTRATE READY FOR COATING

AN AUTOMATIC SYSTEM FOR PREPARING THE SURFACE OF WINDOW PROFILES, BUILDING PLASTICS, WOOD DOORS, COMPOSITE DOORS AND VARIOUS OTHER SUBSTRATES.

SANDING HEADS

The Surface Master is capable of cleaning multiple sides as well as recesses and raised surfaces in the same pass. Unique variable speed brushes with specially adapted fine abrasive tips with the option of pre-sand and sealer sand brushes on the same machine for wood processes. Multiple extraction points remove unwanted dust particles. Guaranteed to clean all surfaces easily providing a perfect preparation for primers and top coats.

MIXING EQUIPMENT

SPECIALISED PAINT MIXING EQUIPMENT

THE MIXING SHELF SYSTEM IS SEMI AUTOMATIC AND HAS SPACE FOR UP TO 24 CANS. PIGMENTS ARE STIRRED AUTOMATICALLY ON A TIMER.

WEIGHING PIGMENTS

Each tin has an easy pour spout that controls the flow making it simple to weigh each pigment correctly. The push release button also allows you to cut off the pouring pigment instantly. Precision scales are required to produce each formulation from our 'Colour Match' software accurately.

CREATIVE RESINS

Machinery & Equipment

Mixing equipment required to produce professional results in house!

GYROSCOPIC MIXER

Tri-directional sliding door structure: creates an open space for quick and convenient loading. Easy Clamping - innovative clamping design with auto detection system. Guide Screw Protection - very smooth and quiet operation.

VORTEX MIXER

Innovative bi-directional sliding door structure creates an open space for easy access. Mixer will automatically sense and notify you of improper locking of the lower loading plate and uncentered paint can position.

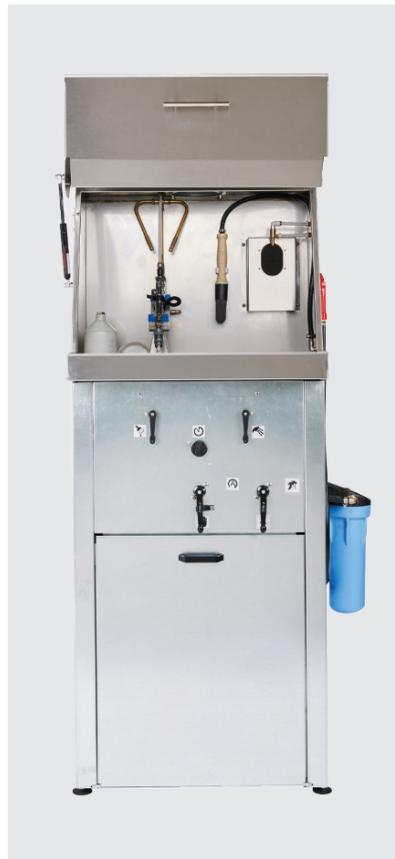

PRECISION SCALES

Quality industrial grade weighing scales, for quick, easy and accurate weighing, ideal for weighing resin and pigments. For weighing up to 3kg. Large floor scales also available for customers who mix large volumes of paint in house, with a digital LCD display and capable of holding 70kg of material.

AUTO GUN WASH

Advanced spray gun cleaning technology, quality industrial construction offering a large cleaning area and a small footprint. New ergonomic dynamics and superior filtration for gun-wash life extension.

CLEANING CYCLE

High pressure internal washing jets with extraction system. High power cleaning up to 20ltrs per min both automatic wash and manual clean rinse. Suitable for gravity and suction fed guns.

SOLVENT RECYCLER

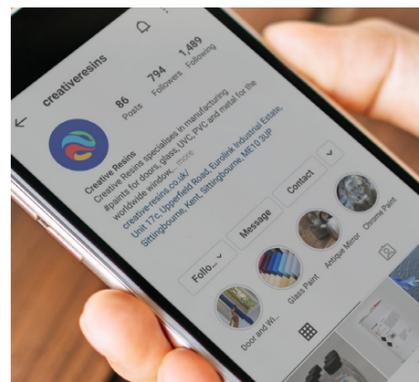

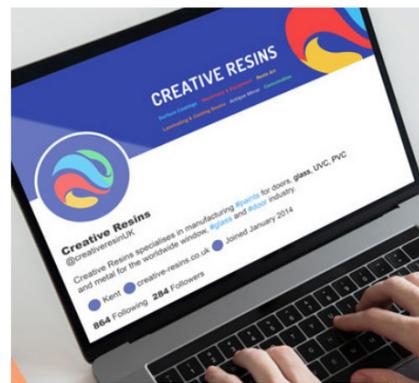

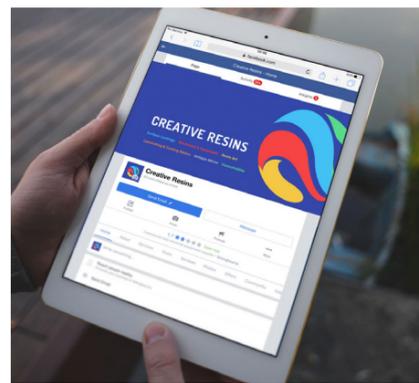

Perfect for recycling your dirty solvents, reclaiming up to 80% reusable material. Dirty solvents are poured into the container. Machine is set to the required temperature and the recycled solvent is fed into a clean container leaving the inert waste in a disposable bag.

INDUSTRY EXPERTS

We have an enviable reputation extending more than 30 years for supplying quality products and services worldwide to the decorative glass and surface coatings industry.

Fast Delivery

With large volumes of stock we aim to provide fast and efficient delivery for all your coating requirements.

Support 24/7

We aim to provide 24 hour technical support with our own experienced and highly trained staff and our range of online video tutorials.

100% Satisfaction

Your satisfaction is our satisfaction. Our reputation has been built on quality and service.

Online Ordering

Use our on line shop to simply place your orders at the click of a button.

Great Value

All our products are manufactured to an exceptional quality at a competitive price.

Trade Account

Get in touch with our accounts team to set up a trade credit account with payment plan.
