WELCOME

Creative Resins is a family run business for more than 30 years. We manufacture specialist paints and resins for Doors, Windows, Glass, Metals, Wood and Concrete as well as a comprehensive range of decorative resins including Water Clear Casting Resins and Chrome and Mirror paints. Our products are supplied to the construction industry worldwide as well as trade and general public. We work hand in hand with Composite Door manufacturers, Window fabricators, Glass Processing companies, Metal fabricators, Garage Door manufacturers, Kitchen and Flooring companies to provide not just a comprehensive range of industrial surface coatings but also solutions for their decorative, industrial and commercial requirements including the development, manufacture and supply of specialist application systems and equipment including bespoke software programmes and an unrivalled technical support.

DOOR & WINDOW PAINT

Painting composite doors, glazing cassettes, aluminium, PVCu and plastics has never been easier. Weather it's just plain white or foiled profile it can be painted to any colour using the remarkable PlasPaint.

PlasPaint is a highly versatile Polyurethane Acrylic paint that provides an outstanding performance on a variety of substrates. It provides excellent adhesion, is UV stable and weatherproof with excellent scratch and chemical resistance.

PLASPAIN PRE-MIXED

PlasPaint Pre-mixed is a blend of PlasPaint Base, Colour Pigment and reducer supplied ready to spray. Over 15,000 colours are available from our 'Colour Match' software. PlasPaint Pre-mixed is also available in a range of finishes that include gloss, super gloss, matt, Intense matt, satin and texture.

PLASPAIN 2K

Manufactured in the UK by Creative Resins. It is a specialist 2 pack coating available in a 30Ltr system including 25Ltrs base and 5Ltrs catalyst.

PLASPAIN 1K BRUSH 'N' ROLL

PlasPaint 1K Brush 'n' Roll is specially designed for easy application with a paint roller or brush. It is a single component product that is both water and heat resistant. It comes with a comprehensive 10 year warranty and is perfect for both commercial and DIY use.

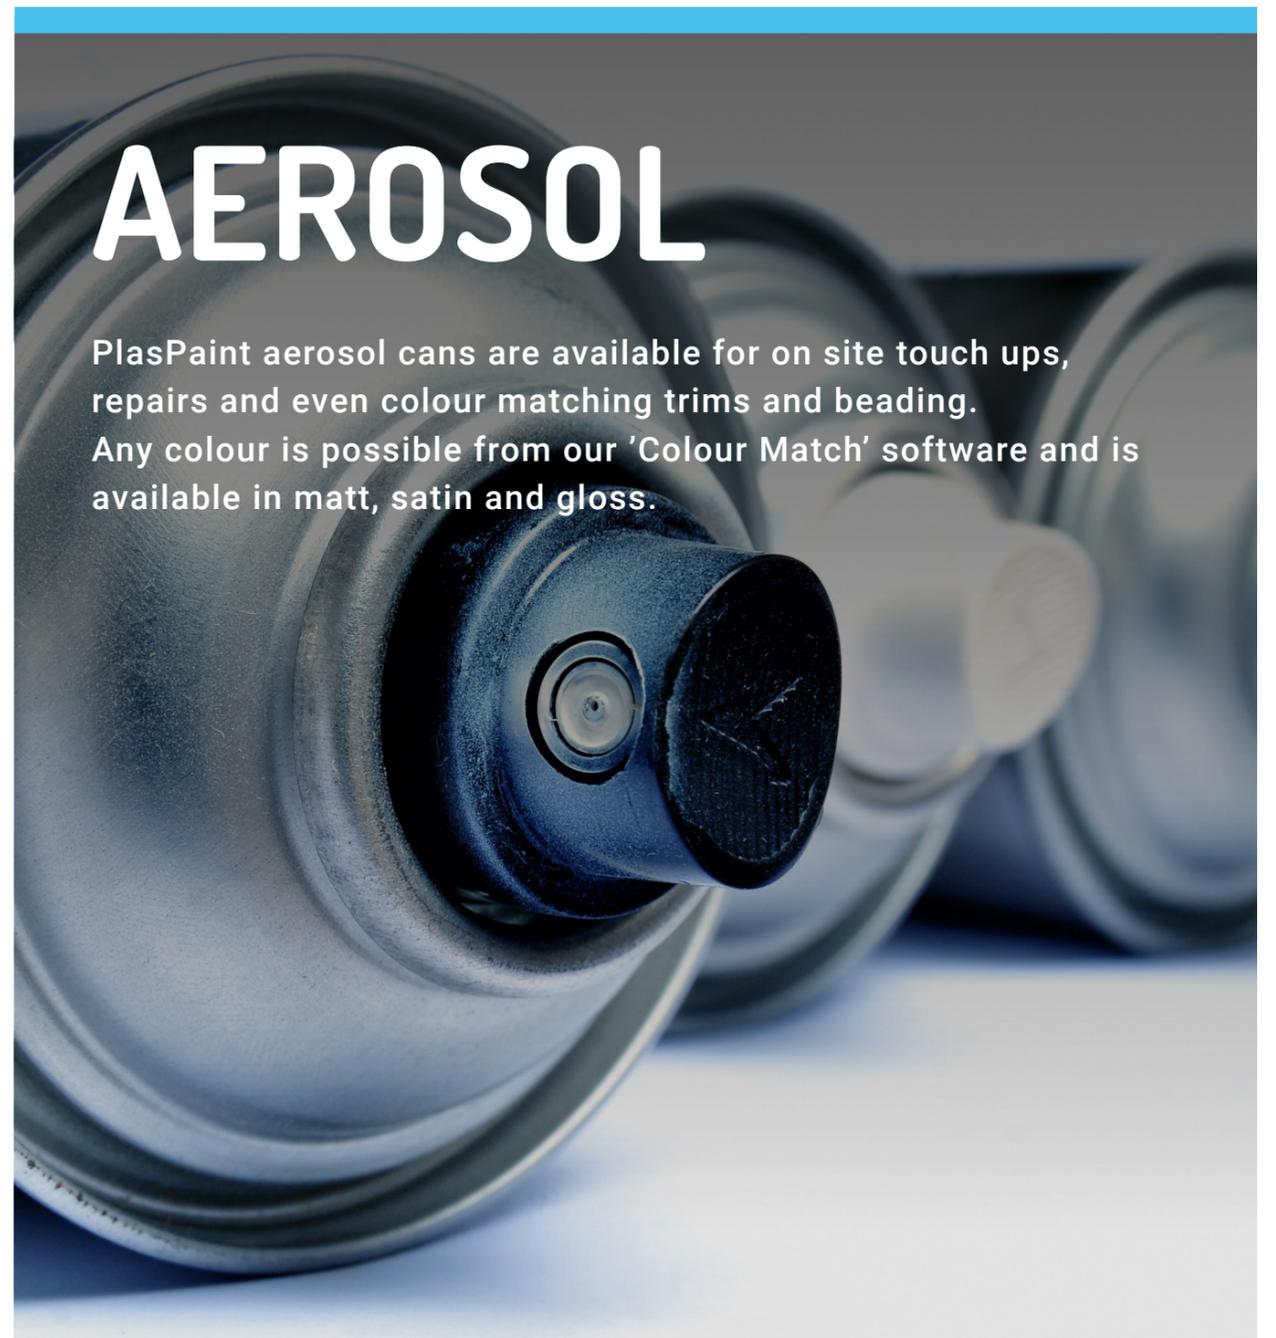

PLASPAIN AEROSOL 2K

PlasPaint Aerosol 2K has an integrated cross linking catalyst accelerator inbuilt that is released into the paint via a push valve on the bottom of the can providing an 8 hour lifespan once activated.

PLASPAIN AEROSOL 1K

PlasPaint Aerosol 1K just needs to be shaken well and can be used multiple times until the product runs out.

AEROSOL

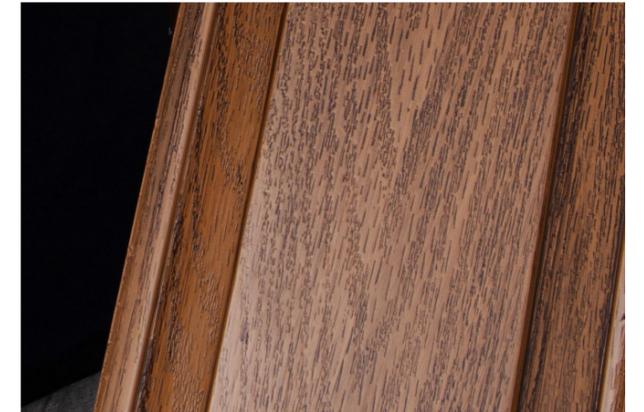

PlasPaint aerosol cans are available for on site touch ups, repairs and even colour matching trims and beading. Any colour is possible from our 'Colour Match' software and is available in matt, satin and gloss.

NEW & EXCLUSIVE

Creative Resins brings to you a wide range of aerosol spray paint products that include single and dual component aerosol cans as well as aerosol can filling machines. We offer a wide selection of specialist paints for application to a variety of different substrates, all of which can all be easily transferred to an aerosol can using our aerosol can filling system.

GRAINEX

Transforming a GRP composite door slab, PVCu profile or trim into a stunning real wood effect could not be easier. GrainEx has been matched to the most popular natural wood colours used in the industry today.

WOOD EFFECT

GrainEx has been matched to the most popular natural wood colours and foils in the industry today, such as Renolit and VEKA. More than 20 colours are available including Rosewood, Golden Oak and Irish Oak.

PROCESS

Select the PlasPaint Woodgrain Base Coat colour of your choice spray the surface and allow it to dry. Apply the matching GrainEx patina using the application bottle provided or conventional spray gun. Remove any excess using a soft cloth. Then apply PlasPaint protective coat over the surface to finish.

SOLVENT FREE SOLUTION

GrainEx is a pre-mixed formulated grain enhancing solution. They are solvent free, VOC free and odourless. GrainEx is easily applied by hand using a special sponge head bottle or can be applied using a conventional spray gun. Apply over the chosen basecoat and leave for a few minutes before wiping away the excess to reveal the enhanced wood grain.

APPLICATION

GlassPaint can be applied to all types of glass including toughened. It has excellent resistance to high temperature and moisture and is, the ideal product to use behind cookers, hobs, showers and wet rooms.

GLASSPAINT SUPREME

Suitable for both commercial and DIY use and comes with a 10 year warranty period. Glasspaint Supreme solvent system works at 1:1 ratio of Spray A and Spray B.

GLASSPAINT

Perfect for Glass Splash Backs, Back Painted glass cladding, shower enclosures and wet rooms. Available in water based and solvent systems.

An infinite choice of colours available in transparent and opaque plus a huge menu of special effects that make for an endless range of options. Exceptional adhesion, waterproof, weather proof and UV stable.

GLASSPAINT H20

GlassPaint H20 is a specially formulated one component Acrylic crosslinking copolymer that is fast drying with good chemical resistance and excellent water repellent properties. It is totally weatherproof and UV stable. It is VOC free and odourless.

GLASSPAINT H20 PRE-MIXED

Pre-blended to any colour and ready to use. Over 15000 colours are available from our 'Colour Match' software to provide an infinite range of colours including RAL, NCS, Pantone and numerous other corporate colours.

GLASSPAINT H20 BASE

GlassPaint H20 Base can be pigmented using Creative Resins concentrate WB colour pigments and the Colour Match software to provide an infinite range of colours

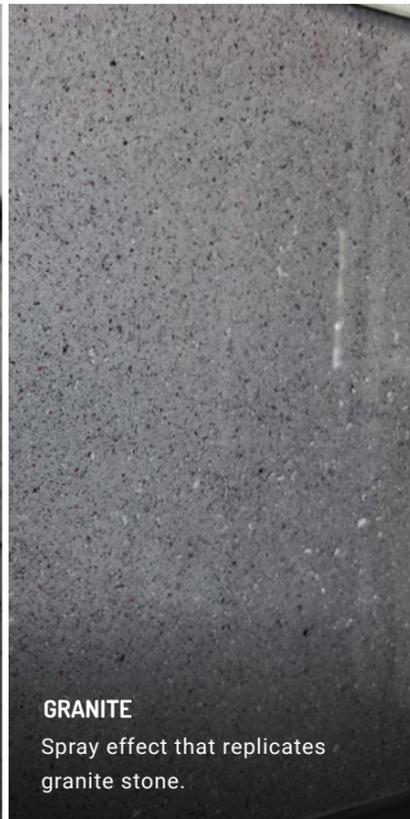

GLASSPAINT EFFECTS

BRING YOUR GLASS TO LIFE!

Creative Resins offer an extensive menu of unique spray effects. Effects can all be sprayed on to any type of glass and any colour is possible. Like all Creative Resin products Glasspaint effects have a comprehensive 10 year guarantee and is perfect for indoor and outdoor locations.

WEB
Specially manufactured to create web / marble effect on glass.

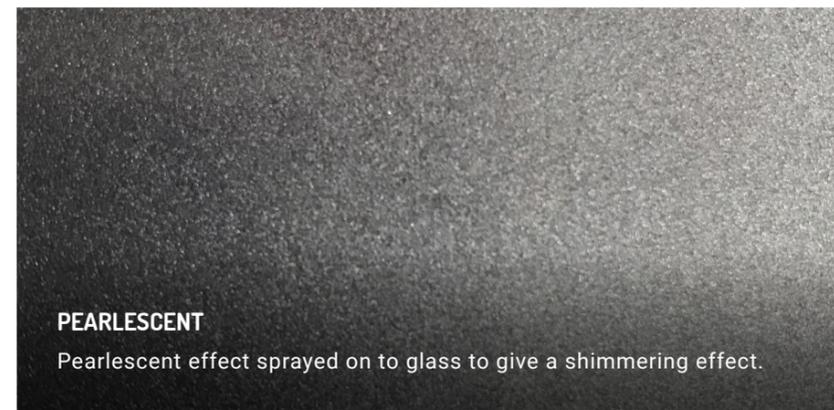

GRANITE
Spray effect that replicates granite stone.

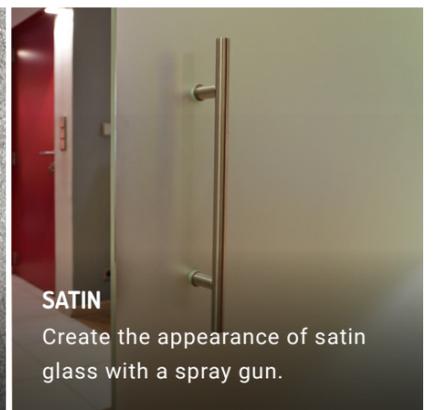

CRACKLE
Unique system where the base coat cracks irregularly, revealing the contrasting colour below.

GLITTER
Range of fine coloured glitters creating a refraction of light and colour.

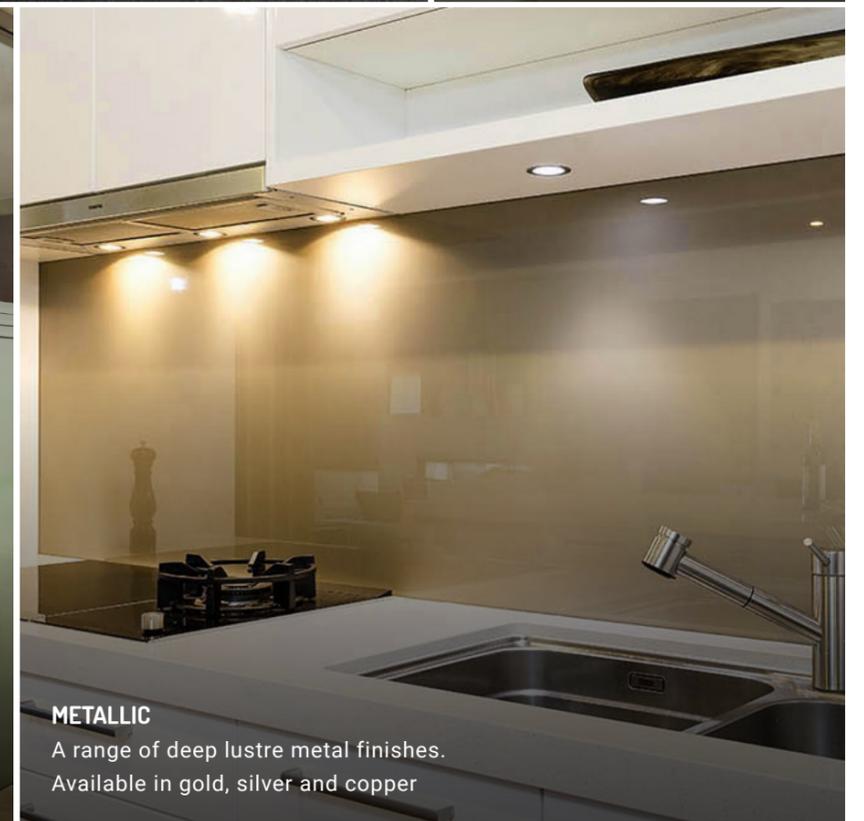

PEARLESCENT
Pearlescent effect sprayed on to glass to give a shimmering effect.

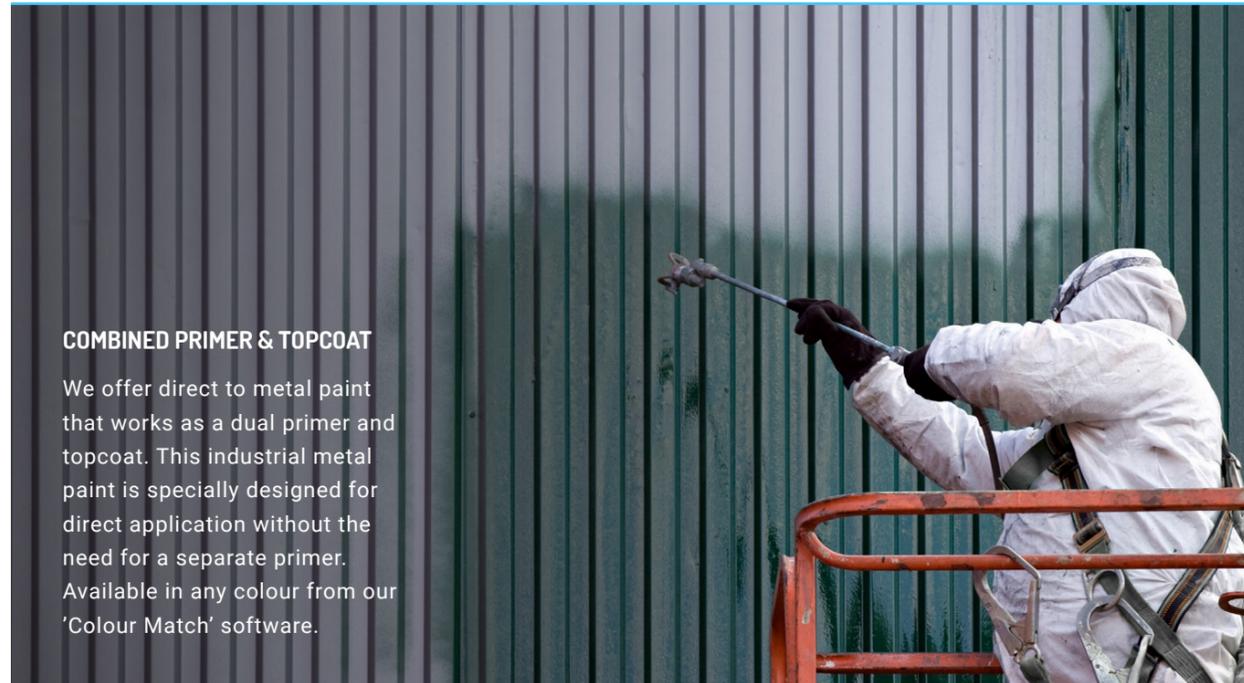

SATIN
Create the appearance of satin glass with a spray gun.

SANDBLAST
Looks and feels like real sand blast, perfect for privacy glass.

METALLIC
A range of deep lustre metal finishes. Available in gold, silver and copper

COMBINED PRIMER & TOPCOAT

We offer direct to metal paint that works as a dual primer and topcoat. This industrial metal paint is specially designed for direct application without the need for a separate primer. Available in any colour from our 'Colour Match' software.

ANTI-CORROSION PRIMERS

A range of Anti-Corrosion metal primers including Zinc Phosphate and Red Oxide for use on all types of ferrous and non-ferrous metals. Available in a range of colours.

TOP COATS

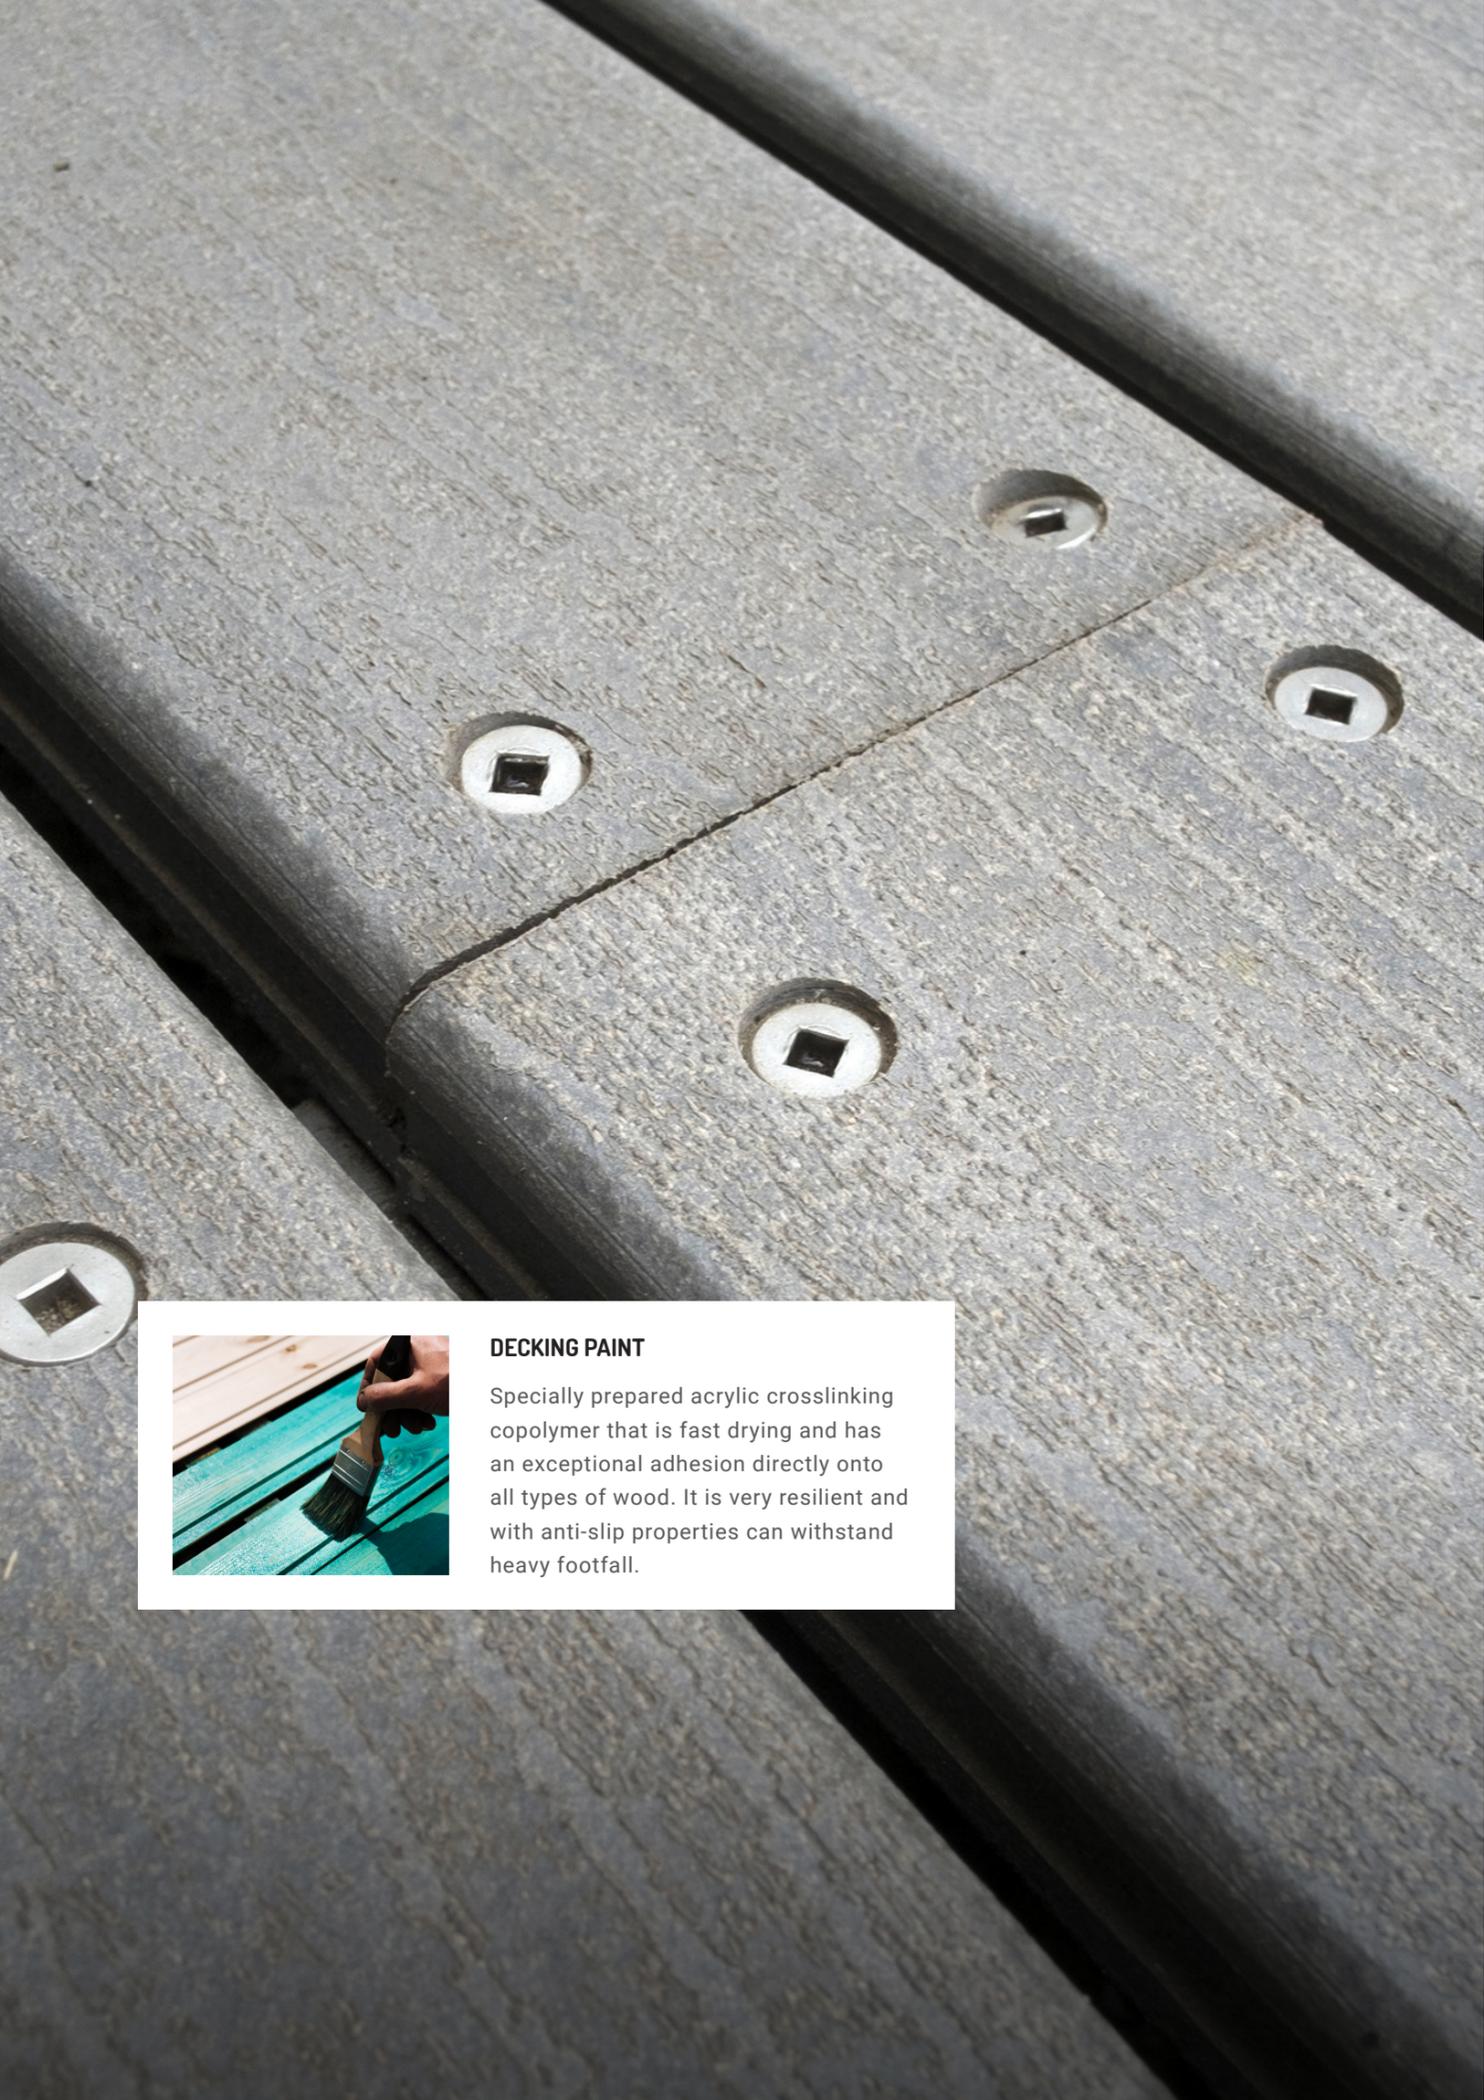

Acrylic PU top coats designed for use over all our primers. The topcoats are available in any colour including leading manufacturers Pantone, RAL, NCS and more. Finishes include gloss, matt, texture and also anti-slip. Anti-slip is perfect for metal surfaces such as steel stairs, loading bays and walkways where health and safety is paramount.

NEW

METAL PAINT

Creative Resins is home to some of the best metal paint products that can be used on an array of indoor and outdoor metal surfaces. Our metal paint is perfect for Steel, Zinc, Galvanised material, Stainless Steel, and Aluminium. Capable of achieving up to category C5M anti corrosion level.

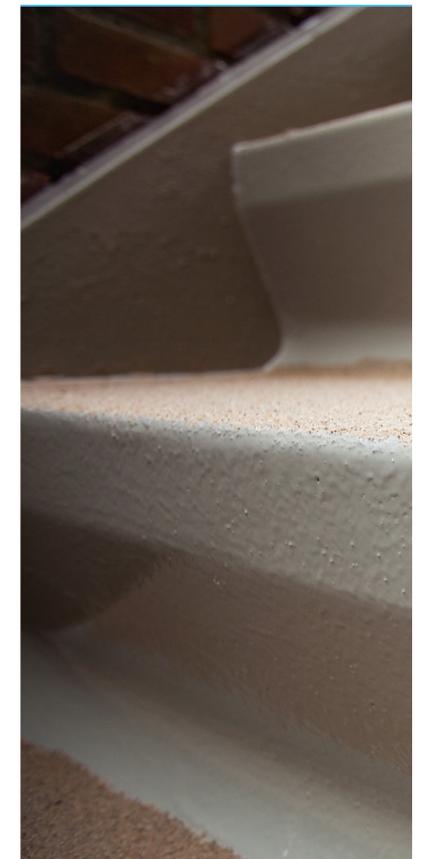

See our Metal Paints table that provides full details on the process and products required to achieve your desired finish. Whether it is indoors / clean environments (C1) or highly aggressive outdoor / coastal and marine environments with high salinity (C5M), we are able to offer the perfect solution which will conform to British Standards and EU regulations.

FLOOR PAINT

Creative Resins brings to you a range of high-quality floor paint products that are designed to bring durability and colour and to a variety of indoor and outdoor surfaces.

The industrial floor paint products we provide are designed specifically for concrete, metal and timber, available in a wide range of colours.

DECKING PAINT

Specially prepared acrylic crosslinking copolymer that is fast drying and has an exceptional adhesion directly onto all types of wood. It is very resilient and with anti-slip properties can withstand heavy footfall.

CONCRETE FLOOR PAINT

An industrial concrete floor paint that can also be used on fresh 'green' concrete. The special formulation allows the paint to be absorbed into the concrete surface acting as a moisture barrier and also preventing surface dust. It is ideal for both interior and exterior use. This fast drying paint has excellent anti-slip properties that make it ideal for factory floors, walkways and areas where Health and Safety are demanded.

PIGMENTS

Choose from our full range of solvent or waterbased pigments to blend with all Creative Resin base paint products. Using our unique 'Colour Match' software you are able to mix over 15,000 colours in house from all popular swatches and commercial paint colour charts.

WATERBASED (WB) PIGMENTS

A range of 15 concentrate waterbased pigments that are all intermixable and used in line with our 'Colour Match' Software. The pigments exhibit low VOC, and are lead and chromate free.

UNIVERSAL TINTER (UT) PIGMENTS

A range of 17 highly concentrated, Lead Free, solvent based colour pigments that are all intermixable creating an infinite colour range in any shade or tone of colour. All of which work in conjunction with our surface coatings for doors & windows, glass and metal.

COLOUR MATCH SOFTWARE

Simply select a colour, the quantity required and the base product you are using and 'Colour match' will generate a formulation showing the required colours and quantity of each.

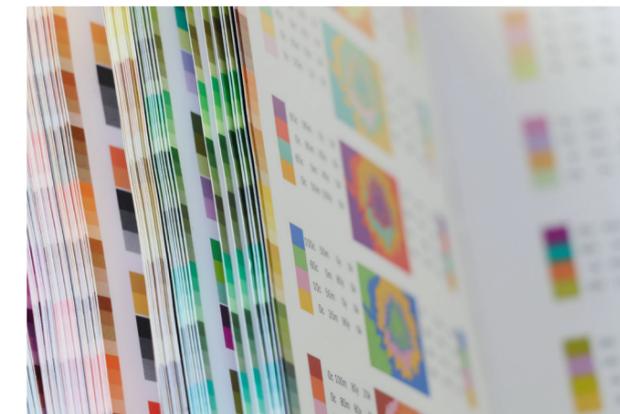

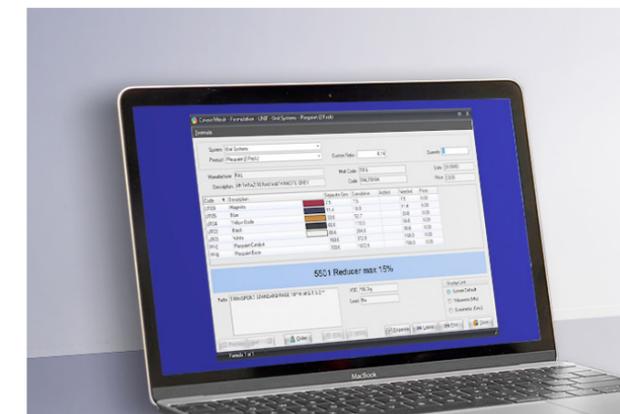

PHOTO SPECTROMETER

Creative Resins offer a colour matching service to all our customers using in house state of the art equipment to scan customers samples and create a paint formula to match.

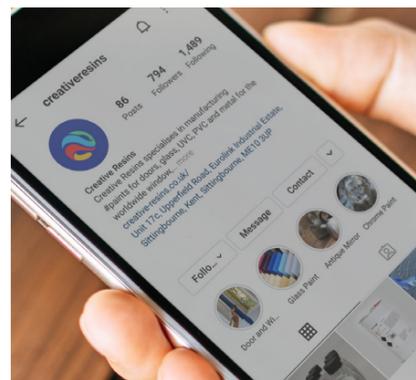

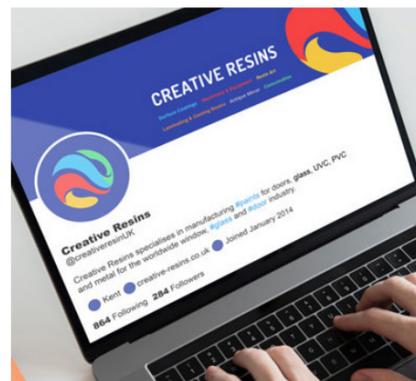

COLOUR MATCH SOFTWARE

'Colour Match' software accurately generates more than 15000 colour formulas for both our Water and Solvent based paint systems which including RAL, NCS, Pantone and numerous other industry standard colour books.
