ACRYLIC RESIN PAINT FOR GLASS

## CRI GLASSPAINT

Specialised acrylic based paint for all types of glass. Available in solvent and water based systems.

# GlassPaint Introduction

Glasspaint is a specifically formulated acrylic resin paint system for the back painting of glass. Glasspaint is used to back paint glass in domestic and commercial locations such as kitchen and bathroom splashbacks.

Glasspaint has a comprehensive 10 year internal and external warranty and can be applied to any glass surface. This product will not crack, fade or delaminate and is resistant to high temperature, water and moisture. Using our 'Colour Match' software Glasspaint can be formulated to any colour including RAL, Pantone, BS and many more. An extensive menu of spray effects are available. Available in both water based and solvent based systems, fast cure time in ambient temperature.

# GlassPaint 'Colour Match'

Glasspaint 'Colour Match' software allows customers to mix Glasspaint in house to over 15,000 colours, including RAL, Pantone, NCS and many more.

**Any colour is possible!!**

Using our 'Colour Match' software customers are able to mix over 15,000 colours in house from leading paint manufacturers including RAL, Pantone, NCS and Dulux.

Customers are able to mix any quantity depending on size of job and amount of paint required.

Glasspaint pigments consist of a range of 19 colours that combine to create each colour available on the software. These pigments are then mixed with Glasspaints A and B to give our unique mix capable of spraying any type of glass in any colour.

Colours are added daily to our software, with one click of the 'Update' button, every colour is available to you in seconds.

# GlassPaint 'Colour Match'

Glasspaint is extremely simple to use. It is a two component system, Base and Hardener, mixed together in equal amounts. There are 19 concentrate colour pigment that are used to colour the base paint.

Simply choose the colour and the volume of material required for the job.

Our unique 'Colour Match' formulation software will give the formula showing the weight and volume of each colour and the amount of base and hardener to be used. Mix them together.

You are now ready to spray. Apply Glasspaint using a good quality conventional spray gun.

Gasspaint will normally only require 3 coats. It may be necessary to back paint very light colours with a white, grey or black. It really is as simple as that.

-  **GLASSPAINT A - 40%**
-  **GLASSPAINT B - 40%**
-  **PIGMENT - 20%**

## Colour Reading

Using our spectrometer and colour reading software we are able to match any unique colours from customer swatches. This in house service provides constant colour matching time after time using state of the art equipment, once the colour has been matched to within the required DeltaE (visual difference to human eye) the formulation is added to our 'Colour Match' software to use again and again.

# GlassPaint Effects

Creative Resins offer an extensive menu of unique spray effects. All these effects can all be sprayed on to any type of glass and any colour is possible.

## Web Effect

A special paint sprayed onto the glass surface that creates a very fine cobweb effect in a choice of colours. Available in Black, White, Gold and Copper.

**Product Code. GP-SE-WEB-BLK, GP-SE-WEB-WHT, GP-SE-WEB-GLD, GP-SE-WEB-COP**

## Glitter Effect

A range of fine glitters and then backed in any colour creating a beautiful refraction of light and colour.

**Product Code. GP-SE-GLT-S (Silver) GP-SE-GLT-RB (Rainbow) GP-SE-GLT-R (Red) GP-SE-GLT-B (Blue) GP-SE-GLT-G (Green) GP-SE-GLT-Y (Yellow)**

## Pearlescent Effect

A shimmering pearl paint that can be used as a base coat on glass and then backed in any colour

**Product Code. GP-SE-PRL**

## Granite Effect

Small white or black particles sprayed over the glass and then backed in a contrasting colour to give a granite effect.

**Product Code. GP-SE-GRA**

## Crackle Effect

A unique system where the top coat cracks in an irregular pattern exposing the base coat which is in a contrasting colour.

**Product Code. GP-SE-CRAC**

## Stipple Effect

A textured clear paint that changes clear glass into a 3D stippled effect. Can also be coloured or mirrored.

**Product Code. GP-SE-STP**

# GlassPaint Effects

Like all Creative Resin products Glasspaint has a comprehensive 10 year guarantee and is perfect for indoor and outdoor locations. Glasspaint is compatible with all the consumables and machinery equipment.

## Metallic Pigments

# GlassPaint H2O Roller Application

A high performance water based acrylic paint that is environmentally friendly that has an exceptionally tough and resilient surface when cured and provides an incredible bond to all types of glass.

Perfect for back painting glass splashbacks. It can be used for both kitchen and bathroom environments as the cured paint is colour fast, waterproof and heat resistant. The product is odourless and is easy to apply using a brush or roller eliminating the necessity for a spray booth which is expensive and space consuming. The paint is a one component naturally fast drying system. There is no waste. What is not used is simply returned to the original container to be used another time. Simple to use, saving a huge amount of time and money by preparing your own coloured splashbacks. 1 Ltr covers approximately 6 Sq Mtrs. Extensive range of colours available. A premium product at an affordable price. Available in 1Ltr and 2.5Ltr tins.

**Product Code. GP-WB-RA**

## GlassPaints H2O Rollable

Waterbased kit including 1ltr of Glasspaint H2O, roller and roller tray, available in any colour.
